# The MARQUETERIA COLLECTION of Hardwood Floor Medallion Inlays

*“Have no fear of perfection -  
you'll never reach it.”  
— Salvador Dalí*

## IMPORTANT

This version of the catalog is new.  
The website ([www.pavexparquet.com](http://www.pavexparquet.com)) have not been updated with the new  
wood combinations or patterns. Please refer to this catalog when  
asking details or quotations  
for patterns inside.

Commercial Details	.....	78-79
Wood Species	.....	80-81

## The parquetry medallions - refined elements of parquet flooring aesthetics.

The MARQUETERIA MEDALLIONS COLLECTION presented in this catalog, gathers a series of decorative hardwood floor medallion inlay patterns (also called parquetry medallions or motifs) created, preponderantly, from round shapes.

The motifs can be used in independent parquet flooring/hardwood flooring installations (without any other decorative elements – like borders or parquet panels/squares). Of course the creation of various installation schemes is possible taking into consideration the vast options available.

The patterns can be varied from the point of view wood species contained and of sizes to fit an idea or space.

There is also the possibility to create separate patterns for customers.

### Creation & craftsmanship.

Every medallion we manufacture, is created with the aim of enhancing the aesthetic and the value of the parquet floor it is installed in.

The medallion patterns are creations of ours or reproductions + adaptations after a pattern we believe has the aesthetic qualities we are aiming for.

The process of manufacturing a medallion or a border is sometimes less difficult than creating or adapting a design.

### Made-to-order.

As all our decorative parquetry, the medallions in the MARQUETERIA Collection are always made-to-order, no pattern being available "on stock".

When a customer decides to add a piece of decorative parquetry to their floor this is following a manufacturing path that takes a certain amount of time.

The manufacturing time depends – like in all other cases – on the complexity of the pattern and the size of the order.

# THE Maritime PATTERNS

The MARITIME PATTERNS gather a number of medallion motifs whose designs are inspired from maritime compasses. Almost all of these medallion inlays can be installed in the parquet floor assembly in a position indicating the cardinal points.
